Organization:

CUHK Jockey Club
Minimally Invasive Surgical Skills Centre

Department of Surgery
The Chinese University of Hong Kong

**The Workshop**

This is a one-day intensive course focusing on latest technology and development in Hernia surgery. Advanced minimal invasive techniques including laparoscopic totally extraperitoneal hernioplasty (TEP), laparoscopic repair of ventral hernias and controversies in hernia surgery will be demonstrated. The delegates will become familiar with various approaches to hernia surgery and the latest advances in its development after the workshop. There will be a simulated hernia model for a limited number of delegates to attempt laparoscopic totally extraperitoneal hernioplasty.
